

REMARKS

Entry of this amendment is respectfully requested.

This amendment is submitted to correct a translational error that occurred during preparation of the English translation of this application from the German priority application. Specifically, the German priority application disclosed that R¹ and R⁵ may be a C₁₋₁₂ alkyl, as can be discerned from page 5 of the German priority specification and in original claim 1 of that German priority application which is found in the file history of parent application of U.S. Patent No. 6,251,923. No new matter is believed to be added, as this was a typographical error.

Clean and marked up copies of the specification are attached.

If any fees are due to enter this amendment or to maintain pendency of this application, please charge the fees to Deposit Account No. 50-0624.

Respectfully submitted

FULBRIGHT & JAWORSKI L.L.P.
